- The diagram illustrates the assembly of a 2x2x2 cube. It consists of five numbered steps and a detailed view of the base assembly.
- Step 1: Shows the bottom layer of the cube being inserted into the base. The base is a 2x2 grid of squares, and the bottom layer is a 2x2 grid of squares.
- Step 2: Shows the top layer of the cube being inserted into the base. The top layer is a 2x2 grid of squares, and the base is a 2x2 grid of squares.
- Step 3: Shows the middle layer of the cube being inserted into the base. The middle layer is a 2x2 grid of squares, and the base is a 2x2 grid of squares.
- Step 4: Shows the top layer of the cube being inserted into the base. The top layer is a 2x2 grid of squares, and the base is a 2x2 grid of squares.
- Step 5: Shows the middle layer of the cube being inserted into the base. The middle layer is a 2x2 grid of squares, and the base is a 2x2 grid of squares.
- A detailed view of the base assembly is shown on the right. It shows a 2x2 grid of squares being inserted into a base. The base is a 2x2 grid of squares, and the top layer is a 2x2 grid of squares. The middle layer is a 2x2 grid of squares, and the bottom layer is a 2x2 grid of squares. The base is a 2x2 grid of squares, and the top layer is a 2x2 grid of squares. The middle layer is a 2x2 grid of squares, and the bottom layer is a 2x2 grid of squares.
